WEST CAMPUS - B.H.S.
BERKELEY, CALIFORNIA

Frosh Pod

1969

Principal's Message

The first year of high school is a very important year in your life. Looking back over the past year, I was impressed with the cooperative way in which you worked with the leaders of the present 10th grade class in reorganizing your student government. You also were the first class to select classmates to serve on a joint Student-Faculty Committee--a committee which had to face up to some of our most difficult problems. Then you'll remember that three members of your class served on the "Claremont Committee" with other Berkeley secondary students and faculty to make a comprehensive report to the Board of Education. This contribution will effect significant changes in our schools for years to come--and you made an important contribution.

Finally you will recall that this was the year in which we adopted a new daily schedule designed to incorporate our growing student activity program into our school day. Parents were also able to give us considerable time in hosting and sponsoring special events. Miss Friedman, our student activity director, was especially pleased with the growth of our clubs and the wonderful personal relationships made possible through these many activities.

As a staff we wish you continued success in your next three years on the Main Campus. This is not a "so-long" but---'til we meet again--and we will

Sincerely,

Mr. Dwight
